

BRADY® SITE SURVEY FORM

Use this Site survey form to help you identify required signage for your office, factory or worksite. Display signs to educate employees and visitors about company procedures and safety policies, and to warn of hazards. Brady products are manufactured under the QA standard ISO 9001:2000 and where possible the relevant New Zealand or Australian Standard. Further information is available in Brady's unique regulations foldout – located at the front of our latest Brady catalogue. As a general rule we recommend metal signs for outdoor use and poly signs for indoors. Customers should determine the most suitable size and material for their own application. Although Brady signs comply to AS 1319:1994 and NZS 5807, we recommend that you consult your industry's relevant regulating body or specific New Zealand Standard to ensure that your business is compliant with all areas of safety. To use this form, simply tick the corresponding box for the sign(s) you require and note the quantity needed. A space has been provided so you can make note of alternative part numbers where the suggested sign material or size is not suitable. All part numbers are sold as each's unless specified otherwise.

To place your order fax the completed survey to Ellis & Company Ltd. on (09) 527 6183 or phone on (09) 527 3877 for further assistance.
